SUMMARY

I am a fresh graduate in Software Engineering Technology from Politeknik Negeri Padang with a strong interest in web and mobile development. My eagerness to contribute to innovative projects is matched by my commitment to continuous improvement in technical skills and teamwork. I have experience working as a full stack developer and mobile engineer, where I have successfully led projects that enhance user engagement and streamline processes through technology

EDUCATION

Sarjana Terapan (D4) Teknologi Rekayasa Perangkat Lunak

Politeknik Negeri Padang

📅 08/2021 - 08/2025 📍 Padang, Indonesia

GPA
3.83 / 4.0

EXPERIENCE

Mobile Engineer, Onsite Intern

PT. Bejana Investidata Globalindo

📅 08/2024 - 12/2024 📍 Malang, Indonesia

Company focused on investment technologies and applications

- Collaborated with product managers and designers to translate requirements into technical specifications, ensuring timely and successful project deliveries
- Participated in code reviews and provided valuable feedback, leading to a 30% reduction in bugs and enhanced code quality
- Developed and launched a new mobile app, increasing user engagement by 30% within the first three months
- Implemented state management and consumed data to display in the mobile app using GetX

Full Stack Developer, Remote Intern

PT. Kabau Sirah Semen Padang

📅 09/2023 - 06/2024 📍 Padang, Indonesia

Company specializes in construction and project management

- Developed a meeting room reservation system for Wisma Semen Padang using Laravel, focusing on system reliability and user experience
- Applied web application development best practices in Laravel, covering design, implementation, and testing phases
- Participated in the full software development lifecycle, delivering a functional, user-friendly, and visually appealing product adopted by 50+ employees.
- Implemented API integration for an online ticket booking system, ensuring seamless data flow and real-time updates
- Contributed to collaborative software development through GitHub, including code reviews, pull requests, and version control
- Collaborated with UI/UX and Backend teams to ensure smooth integration of design, functionality, and user experience
